HAWAIIAN TREATY

Why It Should be Promptly Ratified by the Senate.

THE ARMY AND NAVY JOURNAL

Points Out the Numerous Advantages to be Secured by the United States by Au-Since the Poundation of the Republic the Acquirement of Additional Territory Has Been Opposed, but the Wisdom of Such Additions lisa Been Justified-Vital Importance of the Paeithe Islands to this Country.

To the Editor of the Intelligencer.

SIR:—In any public discussion of the advantages or disadvantages to be derived by our government from the an-negation of the Hawaiian Islands it is important that the views of our military and naval officers should receive proper consideration. The Army and Naval Journal of the 19th comments as follows on the proposed treaty:

The movement for the annexation of the Hawalian Republic to the United States, which was begun by President Harrison and interrupted by President Cleveland, for the benefit of the dusky soversign, Liliuokalani, has been resovereign. Lilliuokalani, has been renumed under the present administration. This week a treaty of annexation
has been signed and it only requires the
approval of the senate to make the
sandwish Islands one of the territories
of the United States. The annexation of
this stare is in continuation of the poltey of adding to our domain when we
could by peaceful means, which has been
pursued by the United States since it
became an independent country. By it
our territory grew from \$23,941 square
miles in 1800 to \$355,000 square miles in
1867. In the single instance of the territory sequired from Mexico we extended
our bounds by conquest, and even in
that case we paid Mexico \$15,000,000.
In 1803 we gained over \$1,000,000 square
miles by the Louisiana purchase; in
1821 we added Florida; in 1845 Texas,
and in 1848 and 1853 we gained from
Mexico \$91,318 square miles, including
the harbor of San Francisco and the rich
possessions of the gold and silver states.
Finally, Alaska, with \$70,000 square
miles, came to us in 1867.

In every instance these acquisitions of
trritory have met with biter opposition.
Henry Clay did all in his power to defeat the treaty by which we obtained
Florida; resolutions against if were introduced into the legislature of Kenmerspagers were filled with denunciations of it. To the Louisiana purchase
John Quincy Adams objected, on the
ground that it was in substance a dissolation and recomposition of the whole
Union. It made a Union totally different from that for which the constitufioln had been formed. It gave despotipower over the territories purchased.
It naturalized foreign natives in a mass,
It made French and Spanish laws a part
of the laws of the Union. It introduced
whole systems of legislation abnormed
to the spirit and characeter of our instititions. Daniel Webster, with others,
opposed the annexation of Texas, and
the Mexican war, which added so much
to our domain and wealth, was strongly
opposed, and with good reason. The ridiculae cast upon the purchase of sumed under the present administra-tion. This week a treaty of annexation

Mons. Who is there who will rise up to-day and declare that these acquisitions of territory were mistakes? In the end there will be an equally unanimous acquisescence in the acquisition of Hawaii. The arguments against are without reason. If we were able in the days of our feebleness to absorb great territories; to assimilate alien populations and to reconcile with our political and judicial systems strange laws and unfamiliar customs; if we have succeeded in transform. tems strange laws and untaminar cus-toms; if we have succeeded in transform-ing four million staves into voting citi-zens, why should we fear now that we have 70,000,000 lest we take contagion from \$0,000 or 90,000 Sandwich Islanders? From \$9,000 or \$9,000 Sangwich islanders. Why concern ourselves lest our free system of government be disrupted because we add to these United States a territory less in extent than the state of New Jersey and having a population smaller than that of the single city of Paterson.

The complaint that we are going be The complaint that we are going beyond the sea to gather in territory that is not contiguous to what we aiready possess, loses its force in these days of steamboats and telegraphs. For all practical purposes, it is more contiguous than were the states of the Atlantic and Pacific coasts thirty-five years ago. It is as contiguous as Alaska, from which we are divided not by a neutral sea, but by the possessions of Great Britain, the power least disposed of all to favor our territorial expansion. Even now our amiable British cousins are fretting themselves because they fear that we have not ships and sallors enough to defend our prospective island possessions. They need no defense. The flag which will float above the governat house in Honolulu will make any nation wary of interference with Hawa-lian rights. As it is now, England, or even Japan, is at liberty to possess itself of the helpless island, and we have no means of preventing it short of a which might not commend itself to impartial judgment of mankind, Hawali annexed, the conditions would change from one of aggression to one of

change from one of aggression to one of defense.

The population of Hawaii consists of 13,305 Europeans, 40,618 natives and half-castes, 77,660 Japanese, and Chinese, 7,485 foreigners born in Hawaii, and 911 other foreigners. There are 1,526 Americans and 1,236 Englishmen, but the American influence is controlling, and it will become more so with annexation. There are more Chinese than Japanese, 15,301 of one and 12,360 of the other. This is the census of 1890. We need not dwell upon the advantages of the proposed annexation; we might rather say its necessity. That is a subject for another article. As Captain Mahan has shown, the utmost stress should be laid upon the immense disadvantages to us of any maritime enemy having a coaling station well within 1,500 miles of our coast line, from Puget Sound to Mexico. Shut out, he says from the Sandwich Islands as a coal base, an enemy is thrown back for supplies of fuel to distances of 3,500—or twice that distance going and coming—an impediment to sustained maritime operations well infah prohibitive."

Thus it is seen that such eminent navai authority as Captain Mahan recognizes the overwhelming importance of

an impediment to sustained maritime operations well night prohibitive."

Thus it is seen that such eminent naval authority as Captain Mahan recognizes the overwhelming importance of annexation—or at least declares it essential to our future national welfare that no other government on the face of the earth shall acquire these islands either by force of arms or by peaceful negotiation.

They are necessary to our republic as a skirmish line is to a line of battle, or rife pits to a field of fortification, and when the intelligent people of this country have heard all the arguments in favor of ratifying the treaty they will be practically unanimous in sustaining the policy of the administration. The protest of Japan based on objection to the abrogation of existing treaties with the Power intended to be perpetually under the state is changed no matter whether such charge is effected by war and conquest or by the independent action of the intelligent can have no binding force, as it is plain that such treaties were never intended to be perpetually unanimous in sustaining the policy of the state is changed no matter whether such charge is effected by war and conquest or by the independent action of the intelligent exists of the state is changed no matter whether such charge is effected by war and conquest or by the independent action of the intelligent section of all blood remedies. engage in war with some other nation that may hereafter attempt their acquisition? The American people must face and decide this question which is not one of territorial aggrandizement, nor altogether one of commercial interest, but with due regard to one of the possibilities of the future, it assumes the importance of a question of national safety.

An Old Democratic Trick.

Special Dispatch to the Intelligencer.

MARTINSBURG, W. Va., June 24.—
The city council to-day unseated Charles M. Lamar, a member from the Second ward, and seated Harry S. Cush Second ward, and seated Harry S. Cushwa in his place. The action of the
council is the result of a contest between Cushwa and Lamar, the former
of whom was the Democrat. The latter
was the Republican candidate for council at the municipal election in May,
Lamar, who had a majority of 4 on the
face of the returns, was seated by the
old council, but the present council,
which is Democratic, decided against
him and declared Cushwa elected by
one majority. Lamar will appeal the
case to the circuit court.

Miss Siewart's Suicide. perial Dispatch to the Intelligencer. SISTERSVILLE, W. Va., June 24. SISTERSVILLE, W. Va., June 24.— This afternoon the coroner empanuel-led the jury, which passed upon the death of Ada Stewart yesterday after-noon, and during all of this afternoon they were in session and although they have adjourned, the verdict has not been made public, and none of them will tell what it will be.

Defection in German Singing Societie PHILADELPHIA, June 24.—There was considerable excitement among the Was consistence extended as the correction of the arge societies of New York and Brooklyn would probably withdraw from the Northeastern Baengerbund. As reported, the disactified societies include the Arion, Liederkranz, Eichenranz and possibly Hecknoven Mannerchor, of New York, and the Arion, of Brooklyn. What the recalcitrants are alleged to object to is the expenses of training choruses and sending large delegations to the trienal fests. Presidest Leonhardt, of the United Singers of Philadelphia, to-day stated that the Arion of Brooklyn had proposed to withdraw, but that since the City of Churches had been selected as the next meeting place the members of that society had partly withdrawn their objections and he felt assured that the Arion would continue a member of the bund.

Wauted to Exterminate Negroes. German singing societies last night over

BIRMINGHAM, Ala., June 24.-John West, a prominent citizen of Montevallo, who has recently been showing evidences of a falling mind, last night entered James Kroell's effore and declared that certain negroes had accused him of burning the stables of Dr. Acker, which were recently destroyed by an incendiary, and that he proposed to kill every negro connected with the accusation. Before he could be prevented he secured a pistol and shot and killed the first negro to enter the store, who happened to be Will Pope, an inoffensive man. West then went out and began chasing two other negroes with his pistol in his hand, but was overpowered and disarrined. He swears he will exterminate the black population of Montevallo when released. FRANKLIN COLLEGE. Twenty-nine Graduates-Next to Largest Class Ever Graduated.

Special Correspondence. NEW ATHENS, O., June 23,—The seventy-second commencement of Franklin college, occurred Wednesday. There was a tremendous crowd-a solid acre or more of people, and several There was a tremendous crowd—a solid acree or more of people, and several acres of vehicles. There were twenty-two graduates in the classical, philosophical and scientific courses, and seven in the normal, short-hand, commercial and elocution courses. The graduating orations were worthy of grest commendation and many of them were upon living questions of the day. The salutatory address was delivered by Mr. Clayton Asa McCleary, of Warfel, O., who took second honors, and Mr. Harry Wentworth McCombs, of Moundsville, W. Va., first honor man, was the valedictorian. There has been but one larger class graduated in the seventy-two years' history of the college, and that was two years ago, when the literary graduates numbered twenty-five, besides several in the minor courses. Of the twelve classical graduates, eleven will enter the ministry. Franklin college sends out more men into the ministry than Yale or Harvard. All seemed defighted with the commencement exercises, At the close of the exercises after the diplomas had been presented by President Williams, the venerable John A. Bingham, who had left the college sixty years ago, made a very eloquent and touching address. The memories of the past filled him with emotion.

DEATH OF CONGRESSMAN COOKE.

He was Found Dead in Bed, the Result of Heart Disease. WASHINGTON, June 24.-Congress man Edward Dean Cooke was found dead in his room at the Cochran hotel this morning about 5 o'clock, presum-ably of heart disease. Mr. Cooke retired ably of heart disease. Mr. Cooke retired about 11 o'clock last night, apparently in perfect health. At 2 o'clock this morning night clerk Cochran was called 40 his room and found him suffering from nausea, but he soon recovered and declined to have a physician called. He returned to bed and nothing further was thought of the matter until Mr. Cockran returned to the hotel about 5 o'clock this morning and went to Mr. Cooke's room to enquire for him. The cooke's foundation and the physician who was immediately summoned said that he had apparently been dead for several hours. The members of the Illinois delegation were at once notified, and the sergeant-at-arms took charge of the body, which will be prepared at once for shipment to Chicago.

Mr. Cooke was a native of Iowa and 48 years old. He was educated in the public schools of Dubuque and later was graduated from the Columbian University law school of Washington and admitted to the bar. Since 1873 he has practiced law in Chicago. In 1883 he was elected to the Illinois legislature and served on important committees in that body. He was elected to the Fifty-fourth Congress from the "North Side," or Sixth Illinois district, and then re-elected to the present Congress.

elected to the present Congress.

An air of gloom pervaded the house to-day owing to the death of Mr. Cooke, of Illinois, who died suddenly at his hotel this morning. He was very popular with his coliesques and his untimely death was a severe shock to them. The desk which he occupied on the extreme right of the hall was draped in mourning and covered with white roses and magnolia blossoms. The blind chaplain in his invocation referred feelingly to Mr. Cooke's death as a great public calamity.

After the reading of the journal the speaker announced the reception of an invitation from the president of the Beigian chamber of deputies to the members of the house to attend the international parliamentary conference in favor of arbitration, which commences August 6.

Mr. Foss, of Illinois, on hebalf of the delegation, then announced the sad news of the death of his colleague, Mr. Cooke.

Mr. Foss, of Illinois, on hebail of the delegation, then announced the said news of the death of his colleague, Mr. Cooke. He gave notice that at some future time he would ask the house to pay tribute to the character and public services of Mr. Cooke.

Another Standard Oil Gobble. BOSTON, June 24.—The Traveller to day says: A big gas transaction, by which the Standard Oil people secure which the Standard Oil people secure absolute control of the Bay State Gas Co. of Delaware, was consummated in New York yesterday. The conference in which the arrangements were completed was the last of a series and was of a most important character. Messrs, Rogers, Addicks, Coudert, Carter and other gentlemen prominent in gas affairs were in attendance. Addicks accepted the Standard Oil proposition that he should retund about \$2,000,000 in cash or its equivalent to the company, in consideration of which all litigation is to be ended. Mr. Addicks, by virtue of the arrangements, retired from the gas field and the next move will probably be a reorganization of the entire business on a simple basis.

Parade of Confederate Ve e aus NASHVILLE, Tenn., June 24.—The parade of the United Confederate Vetrans to-day in which more than ter thousand veterans took part, was the largest in the history of the organiza largest in the history of the organiza-tion, and one of the greatest ever seen in this city. The streets were densely crowded. General W. H. Jackson was the chief marshal. The stars and stripes and the Confederate flag were conspicuous in the long line that reach-ed from the public square to the Ten-nessee centennial exposition gates. Rain fell at intervals during the procession, though this caused only a brief halt. The parade was a great success.
